

CECO BUILDING SYSTEMS

INDOOR EQUESTRIAN ARENAS

From steeplechase, to walking horse shows to riding broncos, there is no better arena than in a Ceco building.

With extra large clear span area and design standards that top the industry, many riding arenas look to Ceco Building Systems for that special

EQUESTRIAN

design to meet their particular needs. And because our sales and manufacturing facilities are in your vicinity, we know the local preferences for design and local code requirements.

We will work with your architect to design the perfect arena and out buildings for your particular need, designing to 1/16th of an inch. Now that's as close as a rodeo cowboy gets to the doggie he is roping and a heck of a lot closer than you'd want to get to a mad bull.

Every arena is special, every one is different. Let us discuss your particular needs and how Ceco and our Ceco Builders can meet your needs.

ARENAS

Ceco Buildings are marketed through a network of 800 Ceco Builders, local contractors that are dedicated to constructing Ceco Buildings that meet your exact requirements on time and within budget.
